

## IELTS Academic: Writing Task 1

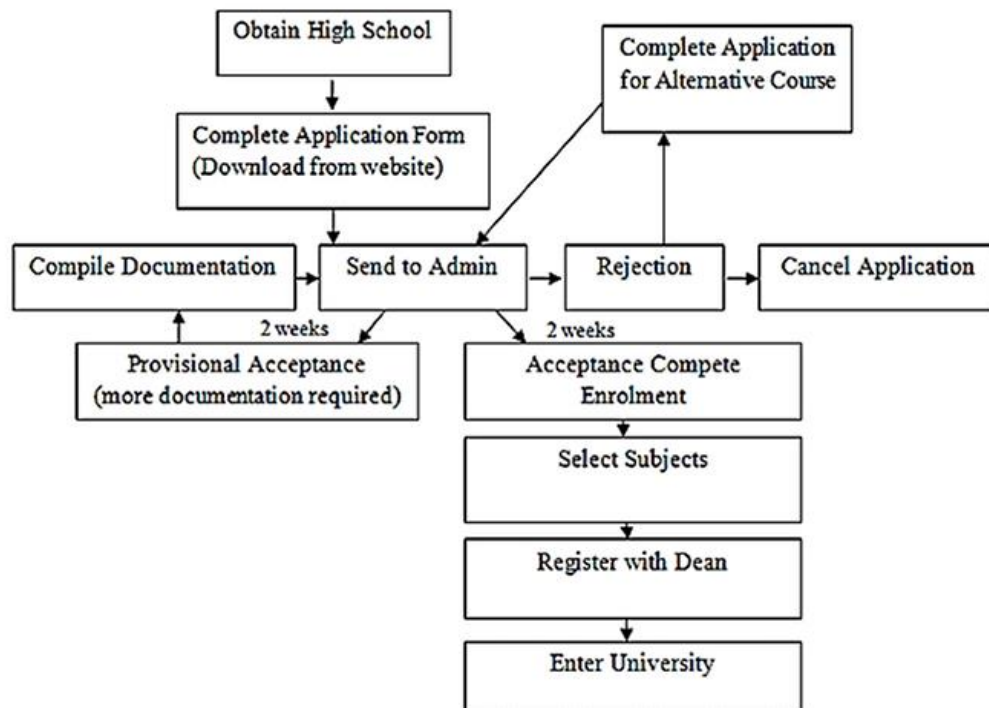

### Flowchart

You should spend about 20 minutes on this task.

The diagram shows the procedure for university entry for high school graduates.

Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Write at least 150 words

Illustrated in the flowchart is the procedure which students, who have graduated from high school, follow when applying for a college course. Overall, there are several steps commencing with high school graduation and ending with either rejection of the application or successfully entering university.

Once the application form has been downloaded and completed by high school graduates, it is forwarded to the university admin department where there are 3 possible outcomes. If it is rejected, it will either be cancelled, or the applicant can apply for a different course and resubmit their alternate application to the same department.

Alternatively, when the form is provisionally accepted, after a 2-week consideration period, the applicant is required to gather and provide additional documents to support their application and then submit these to the college. Once candidates are accepted, at the end of a fourteen-day appraisal, they can complete their registration with the Dean, after they have chosen their preferred subjects and then they finally join the college.
