

## IELTS Academic: Writing Task 1

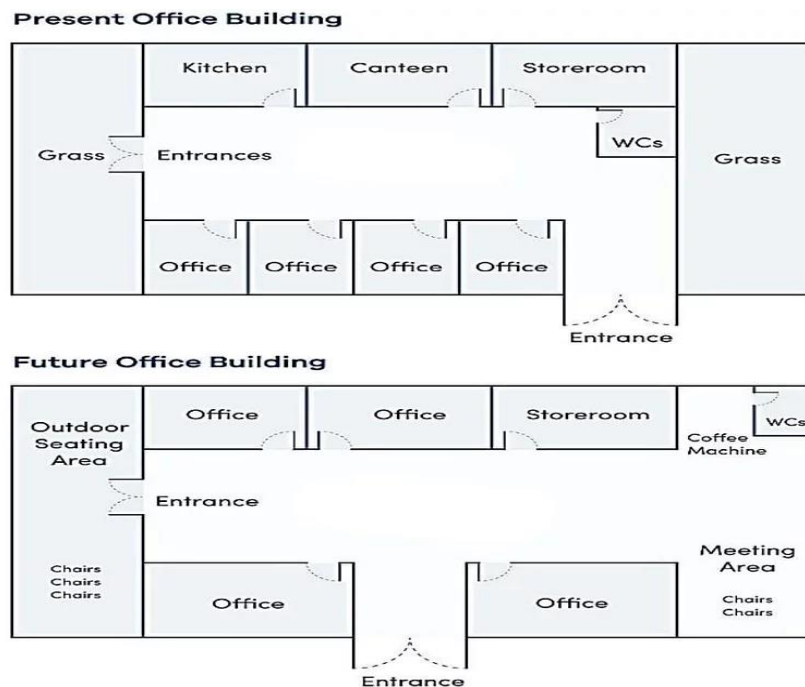

### Maps (Present to Future)

You should spend about 20 minutes on this task.

The diagram below shows the proposed changes to an office building.

Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Write at least 150 words

Illustrated in the maps are existing structure and planned renovation of an office complex. Overall, extensive changes are proposed particularly regarding the re-development of the grass areas at either side of the building.

The grass area, currently located on the right of the building, will be changed to a meeting area and the WCs are proposed to be moved from its present location to the back right of the new complex. On the opposite side, the grass will be converted into a seating area. Additionally, another significant change is the relocation of the entrance from the right side to the center of the building.

In the central interior, the four small offices at the front will be remodeled into two larger ones located on either side of the entrance. Furthermore, the canteen and kitchen at the rear are planned to be renovated into additional offices and a coffee machine will be installed next to the WCs while the only room to remain unchanged will be the storeroom.
